2. Presentation of the course

International Finance is an optional course situated in the 1st quarter of the 4th year of the International Business and Marketing Degree, focused to develop all international trade finance solutions and contextualise them within a working business environment.

The subject’s primary objective is to equip the student with specialized skills and working knowledge of the Export and Import solutions of international companies. The student will discover and integrate the many aspects of ‘International Trade Finance’ covered over the duration of the course. The course focuses on understanding the theory of international finance and on its real world applications from a business point of view.

The course demands considerable reading and comprehension prior to the lecture classes, a fundamental pre requisite of the course and imperative for fully comprehending the lecture classes. In addition to this information, in the
weekly seminars, practical activities will reinforce the competences to be achieved.

### 3. Competences to be achieved in the course

c. competence to **gather and interpret** relevant **data**, enabling the development of critical judgements on the economic and social reality
d. competence to **communicate and transmit information** (ideas, problems, solutions) to a specialised and non-specialised public
e. competence to **develop learning activities** in a relatively autonomous manner.

In order to establish a correspondence between the basic competences and those developed in the degree, these are grouped according to two criteria. Thus, the competences developed in the subject are structured into those that are seen as a development or specification of basic competences and those that define the professional profile of the graduate, with respect to general and specific competences.

**Basic competence: understanding of knowledge**

I. General competences G.A.2  
II. Specific competences E.D.1, E.D.10

**Basic competence: application of knowledge**

I. General competences G.I.2, G.S.3

**Basic competence: gather and interpret data**

I. General competences G.A.3  
II. Specific competences E.P.2

**Basic competence: communicate and transmit information**

I. General competences G.I.8  
II. Specific competences E.P.17

**Basic competence: develop learning activities**

I. General competences G.I.4

**Competences that define the professional profile which are not included under basic competences**

In general, these competences combine the following key elements for professionalising students in the area of international business and marketing:

- provide students with the capacity to adapt to dynamic teams and environments
- provide students with the capacity to create their own integral vision of the operation of a business or international marketing project
- provide students with the capacity to take complex decisions and carry out negotiation processes
I. General competences G.I.4, G.I.5, G.A.1
II. Specific competences E.P.9

Own competences of the subject

Understanding and application of the systems and models that enable the financial operations to be carried out.

Class participation will be evaluated as follows:

- Demonstrate preparation: relate things to book chapters, readings and previous discussions
- Contribute in an active and significant way to ongoing discussions: keep analysis focused, help solving exercises and questions, respond thoughtfully to other students' comments, contribute to the cooperative argument-building and suggest alternative ways of approaching the material.
- In-class Quizzes, prior to the lessons and seminars

**Group Projects**

Every group, composed with 3-4 students. Compulsory presentation.

**Final Exam**

To be admitted to the final exam, a student must achieve a minimum average grade of 4.0 points in the application-based activities (participation, in-class quizzes and group projects). In case a student achieves less than 4.0 points in those activities, the overall course grade will be “Fail”.

Taking the final exam is a necessary condition to receive a quantitative evaluation of the course. In case of non-attendance to the final exam, the overall course grade will be “Not Attended.”
A minimum grade of 5 out of 10 in the final exam is required to pass the course. Failure to achieve this minimum score on the final exam will result in the overall course grade to be the final exam grade.

Extraordinary Evaluation

Those students who have obtained a final grade below 5.0 and an average grade in the application-based activities (participation, in-class quizzes and group project) above 4.0 may apply for an extraordinary evaluation, which will be scheduled by ESCI-UPF in due time.

The extraordinary evaluation will be only for the final exam. The application-based activities and the midterm exam cannot be retaken and keep their weights and marks earned in the term. Therefore the final grade in the extraordinary evaluation will be:

Application based activities + midterm exam: 50%
Retaken final exam: 50%

7. Methodology

Teaching lessons

Previously to every lesson, the students will be invited to prepare readings and other materials detailed in section 8. This previous work will be evaluated either at the beginning of each lesson by means of questionnaires and presentations held during the lessons and/or seminars when putting in practice such materials and readings.

In the lessons the teacher will focus on explaining the contents and competences of the course, even if in a practical way. After them, the students will be invited to further analyse the lesson contents with specific readings suggested by the teacher, which will be useful to prepare the seminars.

The teacher will then answer the doubts that the students may still have about the lesson material.

Seminars

Students within a seminar group will be asked to form sub-groups of 4 to 5 members. A series of programmed activities detailed in section 8 will be covered during the seminar group session, both of individual and group nature.

Problems and exercises, namely the preparation of discussion topics, must be resolved and handed in on an individual basis. These issues will be covered at the beginning of the corresponding seminar class.
