IT 301T ITALIAN LANGUAGE IN CONTEXT: EMERGING INDEPENDENT ABROAD I  
Fondazione IES Abroad Italy: Rome

DESCRIPTION:
The course is designed to meet the needs of intermediate students participating in a study abroad program. In this course the student will be able to express self in a broad array of scenarios talking about self or others with precision and with a large degree of understanding. The student will be able to correct own utterances to ensure a correct understanding. Grammar and vocabulary will always be presented, analyzed and practice in a context which is meaningful to the students.

Oral skills will be emphasized while a grounding in grammar will consolidate the understanding and use of the language structures. Vocabulary is based on everyday situations.

STUDENT PROFILE:
Students entering this level must be able to fulfill the learning outcomes of the Novice Abroad level, as defined by the IES Abroad MAP for Language and Intercultural Communication. Specifically, they should already be able to express themselves on a variety of concrete, everyday topics and meet their basic needs in the language. Students who enter this level may be more proficient in reading and writing skills than oral communication, especially if they have never traveled or studied abroad previously. Although students may have been exposed previously to certain competencies taught at this level, they need additional practice and instruction to move toward mastery of these competencies.

As students gain more self-awareness and self-confidence, they will attempt more in the community. Paradoxically, this means they may also experience more miscommunications and frustration. Reading and writing require effort, and many students will need to commit themselves in this regard. Students will also develop cultural awareness and skills to work through the challenges of adaptation in the local culture and learn to celebrate their successes. Increasingly, they will appreciate the value of these language and intercultural skills.

This course builds upon skills introduced in Novice Abroad. By the end of the course, the successful student will have begun to develop some communicative and cultural self-confidence necessary to attempt moderately complex tasks in the language, as described in the learning outcomes below.
