DESCRIPTION:
Visual storytelling is a precious tool that is used extensively in several business fields: Cinema, Advertisement, Marketing, Music, Television, Journalism, Corporate and Documentary Production, etc. Digital videos have become crucial resources since the invention of the Web, social media and YouTube. It is essential now for every company and business to have a website to showcase its products and strengths, from corporate websites to social media marketing. Digital videos are also the new frontier for Cinema and Art, including tutorials and educational videos.

This course will teach students how to create a video through the following steps: concept, outline, scriptwriting and pre-production; production; post-production; distribution. At the end of the semester there will be a public screening of the students’ projects which also will be published online.

CREDITS: 3 credits

CONTACT HOURS: 45 hours

LANGUAGE OF INSTRUCTION: English

PREREQUISITES: None

METHOD OF PRESENTATION:
Lecture, discussions, and hands-on video production. Site visits will be an integral part of the course. We will go to MIC (interactive museum of cinema) and visit its Archives with special Epson Moverio BT-200 glasses (for an augmented reality experience!).

REQUIRED WORK AND FORM OF ASSESSMENT:
Class participation: 10%
Script preparation: 15%
Periodic Assignments during pre-production and production (writing exercises, camera angles, shot list, storyboards, forum): 15%
Edited project: 30%
Final exam (written, in-class exam, on the issues discussed during the course and the readings at home): 30%

Script Preparation
Each student will work on their individual idea and write a script for the project. Any genre can be chosen, including but not limited to: Vlog, Documentary, Narrative, Commercial, Tutorial, Educational, Music Video, Experimental / Art Video, Résumé, Journal. Discussion will be crucial in the process of finding the right topic and developing ideas. In the process, students will learn about visual storytelling: how to create a story, how to write, how to visualize, how to see the world through a lens, how to frame and how to shoot.

Edited Project
In the second part of the course each student will produce, shoot and edit their project with the help of the instructors, who will guide them in the process through lectures on technique, practicing the techniques acquired, critique on work outside of class, shooting and editing exercises, readings. Students will work on writing, research, pre-production, production and post-production outside of class.

Final Exam
The final exam - based on the lectures, the slides and the readings - will take place during finals week. Students will receive official notice of the exact date and time of the final exam as soon as all possible overlaps have been identified after add/drop deadline.

LEARNING OUTCOMES:
By the end of this course, students will be able to:
• Apply the concepts of visual storytelling by telling a story through images and sounds, from direction, to filming, to editing.
• Acquire the key skills of video making.
• Demonstrate competency in non-linear editing software.
• Use the terminology of storytelling, scriptwriting, video production and post-production competently.

ATTENDANCE POLICY:
Regular class attendance is mandatory. Students are expected to attend classes each day, including course-related excursions.

IES Abroad Milano allows a maximum of two excused absences per semester. Each further absence will automatically result in a penalty of two points off (2/100) on the final grade. Seven absences per course (including 2 excused absences) will result in a failing grade for that course. Furthermore, an absence on the date of scheduled tests, presentations or quizzes does not entitle you to recover/reschedule such tests. Failure to attend your midterm and/or final exam will result in an F grade on that paper/exam.
