GR 401 GERMAN LANGUAGE IN CONTEXT: EMERGING COMPETENT ABROAD I
IES Abroad Berlin

DESCRIPTION: Students who enter this course will have mastered most of the outcomes of the Independent Abroad level as defined by the IES Abroad MAP for Language and Intercultural Communication. Among other characteristics, these students are able to converse at a rate of speed approaching normal conversation. They are creative, spontaneous, and self-reliant as they solve problems, interpret texts, negotiate, and express their opinions, likes, and dislikes in the culture. Although they still make errors and experience communication breakdowns, these students tend to resolve these challenges on their own. Students who enter this level can already understand a variety of colloquial expressions and slang, and are also able to understand a wide variety of native speakers from different backgrounds.

Students entering this level can succeed in a range of moderately complex university courses designed for native speakers. Before registering, they should consult with the appropriate IES Abroad academic advisor on course selection.

By the end of this course, students will have started to acquire the subtlety of expression and control of complex structures that characterize Competent Abroad learners. However, Emerging Competent Abroad learners have only partial mastery of these structures and quite often resort to simpler and more direct modes of expression, particularly when negotiating linguistically difficult or unfamiliar situations. Students at this level begin to understand some local cultural attitudes, values, beliefs, and behavior patterns. However, there will be numerous gaps and inconsistencies in their knowledge, and they lack the depth of understanding and sophistication of those who have spent more time living and working in the local context.

LEARNING OUTCOMES:
Students who are placed in this level should have achieved the outcomes in the Independent Abroad level as defined by the IES Abroad MAP for Language and Intercultural Communication.

By the end of the course, students will be able to achieve some of the outcomes for the Emerging Competent Abroad level as defined by the MAP for Language and Intercultural Communication. The key learning outcomes from the MAP are summarized below:
I. **Intercultural Communication**
   A. Students will begin to recognize and describe key host cultures, subcultures, habits, norms, and behaviors in a variety of settings, and they will be aware of the risk that generalizations can lead to stereotypes.
   B. Students will be able to reflect on and discuss the validity of their own cultural beliefs, behaviors, and values by contrasting and comparing them with those of the host cultures.
   C. Students will demonstrate openness toward different beliefs and styles even when they do not agree with them.
   D. Students will accept responsibility for their own learning by defining their linguistic goals and demonstrating independence in their exploration of the culture.

II. **Listening**
   A. Students will be able to identify a range of social and cultural dialects of the spoken language.
   B. Students will be able to understand a variety of native speakers and non-native advanced speakers and comprehend an array of moderately complex interactions.

III. **Speaking**
   A. Students will participate reasonably well in most academic and social interactions using when appropriate complex language including slang, colloquial expressions, irony, and humor with increasing confidence.
   B. Students will be able to make arguments and form opinions on almost any topic of their interest.

IV. **Reading**
   A. Students will be able to read and understand textbooks and academic articles for classes taught in the host language as well as popular texts for enjoyment.
   B. Students will be able to read and understand authentic materials including newspapers, advertisements, brochures, instruction manuals, etc. on abstract topics with some assistance at times.

V. **Writing**
   A. Students will be able to write for multiple audiences and express themselves somewhat clearly and effectively.
   B. Students will be able to write essays for classes incorporating aspects of appropriate academic style with some assistance at times.

**ATTENDANCE POLICY:**
Attendance and punctuality at all IES Abroad courses, including field studies and excursions, is necessary and mandatory. Students are responsible for signing the attendance sheet in each class, and for clearing absences with their professors.

Absences can only be excused for valid reasons. Students are responsible for producing documentation of these reasons if necessary (i.e. a doctor’s note). Absences for travel or visits of friends or family members are not excused. Unexcused absences affect students’ grades: an unexcused absence leads to a deduction of 3% of the overall grade and may negatively affect the participation grade.

Students who miss 25% or more of class sessions will receive a final grade of “F” for the course. Missed tests cannot be taken at another point in time except in case of documented illness. Students who are late for exams have no right to take extra time. If you are granted an excused absence from an examination (with authorization, as above), your instructor and center director will decide how you will make up the assessment component (by make-up examination or extra coursework).

Late submission of term papers and other work is not accepted unless an extension due to illness or an emergency is approved.

**ACADEMIC INTEGRITY:**
Students are expected to abide by the IES Abroad Academic Integrity Code. Assigned papers need to be properly and amply footnoted where appropriate, with all sources attributed. Poorly written and grammatically sloppy papers will be judged more severely. Work with a language tutor is recommended.
