IT201I ITALIAN LANGUAGE & CULTURE IN CONTEXT: NOVICE ABROAD INTENSIVE
IES Abroad Rome

DESCRIPTION:
This course is designed to meet the needs of highly motivated beginner students who want to enhance their experience abroad through a full immersion language course. The course will introduce the students to the most frequent everyday situations to facilitate their ability to communicate and function in a new environment. Grammar and vocabulary will always be presented, analyzed and practiced in a context which is meaningful to the students. Oral skills will be emphasized while a grounding in grammar will consolidate the understanding and use of the language structures. Vocabulary is based on everyday situations. It is a demanding, challenging and participatory course, with a quick pace: by the end of the course students will realize they are better assimilated into everyday Italian life and culture.

This course corresponds to two semesters of Italian, thus fulfilling the language requirements.

STUDENT PROFILE:
This course is designed for students with little or no prior knowledge of Italian, but with an interest in an intensive language development experience. Students who have studied another Romance language may be interested in entering this level.

By the end of the course, the successful student will have built a solid foundation in the five skills: intercultural communication, reading, writing, listening, and speaking to accomplish a variety of everyday needs in the host culture as described in the learning outcomes below and should be capable of entering the Emerging Independent Abroad level.

LANGUAGE OF PRESENTATION: Italian

PREREQUISITES: None

METHOD OF PRESENTATION:
Classes are taught with a communicative approach to facilitate students' ability to use their own resources and to develop confidence and familiarity with the target language.

The instructor will lead the students through the process of learning using various techniques. Working in pairs or small groups is especially emphasized.

Starting from the first week and throughout the rest of the course students will be assigned various "on site" interactive activities, to encourage them to use the language in practical situations, to interact with locals and with their Italian student companions in order to find out about Italian lifestyle and culture.

The instructor will use task-based field trips and class activities to make the students aware of the strong relationship between language and culture. For this purpose, the instructor will reinforce students' independence by providing them historic and cultural background before they go on field trips.
